

StereoPill, LLC has easy and intuitive user interface; will be sold at a Sealed bid Sale on January 11, 2013

Wellesley Hills, MA (PRWEB) December 6, 2012

Prior to an event, StereoPill (<http://www.stereopill.com>) uses its proprietary crowdsourcing technology to survey event attendees to determine their musical preferences.

<http://vimeo.com/32759946>

Greg Santos, Esq., and general counsel for StereoPill, LLC, noted, “The user interface is easy and intuitive, which allows event organizers to easily survey their guests musical tastes in an efficient, timely and organized fashion.” Mr. Santos continued on saying, “This saves time and enhances guest satisfaction at an event. This application integrates social media.”

He also noted that the application was built entirely in the United States and payments are integrated through Stripe.

All the intellectual property will be sold, including: website, all underlying code, intellectual property and marketing materials on Friday, January 11, 2013 at noon. Persons interested in bidding must sign a Confidential Disclosure Agreement (“CDA”) obtained from FWG – [IPSaleServices\(at\)finnwarnkegayton\(dot\)com](mailto:IPSaleServices(at)finnwarnkegayton(dot)com) or (781) 237 – 8840. They will then receive a bid package.

About Stereopill, LLC

StereoPill was created by Ari Rosenfield, a noted New York and Boston based DJ who has spun at hundreds of weddings and large events; Wells Riley an interactive specialist based in San Francisco; and Greg Santos, a Boston-based attorney, who specializes in software startups.
